8. Provisional schedule

See appendix to this bulletin.

9. ICF Environmental Programme – Part 2

With travel being the 4th largest contributor to the global increase of CO2 emissions, we can all take action to monitor and offset what we produce.

Events release high levels of carbon dioxide emissions into the atmosphere. This imbalance of greenhouse gases contributes to the warming of the planet, causes drastic changes to our weather patterns and changes the way many of us live.

As Environmental Action partners, the ICF and Starboard work together to make the travel emissions of every ICF World Championship or World Cup climate neutral by planting 1 mangrove tree for every 1 tonne identified in calculations. This action grows bigger for each SUP World Championship event, where 10 mangroves will be planted for every 1 tonne emitted. Over the next 25 years, mangroves will absorb the amount emitted from these events. Thank you for helping us in our mission!

As per the entry in Bulletin 2 - Team Leaders please now find the link enter the travel details for your team.

<https://forms.gle/b3rnriT8eAXJibR47>

If you are an individual (official, referee, Jury member etc) please complete as a single person.

10. Live streaming

In due course the live streaming will be found via <https://planet.canoeicf.com/2022PoloWorldsSaintOmer>

InLive will provide camera operators and all fields/pitches will have a minimum of one camera and where there is only one this will be a pan left and right and zoom type camera.
